Artemis Gallery Lisbon // PRESS RELEASE

Collective Exhibition

An Endless Flow

5th February to 6th March 2021

Artemis Gallery has the pleasure to announce the first exhibition, *An endless flow*, from the Italian curator Carlo Sala, with works from national and international artists.

In recent years, the theme of identity has once again become a field of investigation for many artists and thinkers. At the same time, it has also become an area of political and ideological clashes between those who see it as an immutable reserve of socio-cultural values to be used as a means of division, and those who see it as being in constant change, open to a flow of continuous commingling in the relationship with the other.

The exhibition *An Endless flow*, which marks the inauguration of the Artemis Gallery in Lisbon, deals with the transitory and ever-changing character of identity through the work of four European artists: Gil Ferrão, Giuseppe Gonella, Stefan Milosavljevic and Filippo Minelli.

About:

Artemis Gallery opened in Lisbon, in 2020, and focuses on a broad range of practices within contemporary art, including painting, drawing, installation, sculpture and video, following several scenes and artistic backgrounds.

Artemis is a Goddess, who since newborn was taking initiatives, she knew exactly what she wanted, she was always very active, loyal and stable in her beliefs and decisions. Driven by these qualities, our mission is to support emerging and established artists we believe in and help them to develop their work not only in Lisbon, but internationally, through house exhibitions, collaborations with other galleries and institutions and participation in art fairs. The artists represent a variety of techniques and practices to share with the world their ideas, feelings and visions.

We focus on building up and establishing personal, constant and reliable partnerships with our artists, clients and art fairs, since we want to be the bridge that connects the artists with collectors and institutions.
